

# Selection & Appointment of Diagnostic Radiology Residents

## Applications

The application process meets all requirements of the Equal Employment Opportunity and the Americans with Disability Acts. We do not discriminate with regard to gender, race, age, religion, color, national origin, disability, or veteran's status.

All residency positions are filled on a competitive basis through the National Residency Matching Program (NRMP). Applications and supporting documents must be transmitted to the program electronically through the Electronic Residency Application System (ERAS) by November 15<sup>th</sup>. Incomplete applications will not be reviewed.

The program director will consider all ERAS applications that include:

1. Completed application form
2. Personal statement
3. Official medical school transcript
4. USMLE scores (all available)
5. Letters of recommendation (LOR) from medical school faculty

**Applicants must meet the following eligibility criteria to be invited to interview.**

1. Graduation from one of the following:
  - a. Medical school in the US or Canada accredited by the Liaison Committee on Medical Education (LCME)
  - b. Osteopathic medical school in the US accredited by the American Osteopathic Association (AOA)
  - c. Medical school outside the US and Canada plus one of the following:
    - (1) Have received a currently valid certificate from the ECFMG prior to appointment, or,
    - (2) Have a full and unrestricted license to practice medicine in a US licensing jurisdiction in which he/she is training
  - d. Medical school outside the US and completion of a Fifth Pathway\*\* program provided by an LCME-accredited medical school
2. Ability to carry out the duties as required of the program during the period of time allotted (5 years), including, but not limited to, travel to clinical training sites during the day and on call, attend early morning and evening conferences, attend a national meeting, and attend AIRP for 4 weeks in Washington, DC.
3. Ability to proficiently read printed and cursive English, write (print) English text, understand spoken English on conversational and medical topics, and speak English on conversational and medical topics.
4. Ability to reside continuously in the US for the length of training.

Program information of a general nature is provided on the Department of Radiology's website at <http://www.uams.edu/radiology/education/residency/diagnostic/>. Applicants with questions should contact the program coordinator at 501-603-1595.
